

# THE RIGHT WAY TO START.

Cummins reman diesel running complete and long block engines are the ones you can trust. Built for the long haul, they come with a no-hassle core return policy and are backed by the Cummins nationwide limited warranties. Running complete engines are covered for 2 years and 100,000 miles, whichever comes first, and long block engines are covered for 1 year with unlimited mileage. That's the kind of power you need.
