

ESSENTIAL TOOLS AND SERVICE EQUIPMENT

ESSENTIAL TIRE PRESSURE MONITORING SYSTEM (TPMS) AND REPLACEMENT OF CH9936

All dealers will be receiving the new 2046300080 TPM / RKE Analyzer Kit in the 2nd quarter of 2017.

The new TPM Tool will support the following:

- All FCA TPM sensors from 2006MY to 2017MY, and includes 2018MY and future FCA vehicles manufactured with a cybersecurity gateway
- Able to reset TPM system and read all TPM related Diagnostic Trouble Codes (DTC's) on FCA vehicles through the TPM Tool OBDII module using the vehicle Diagnostic Link Connector (DLC)
- Activation of all FCA, as well as all other OEM vehicle TPM Sensors
- Programming of the new Magneti Marelli Schrader EZ Sensor for non-warranty repairs
- RKE signal detection and read capable
- HomeLink signal detection and read capable

Tire Pressure Monitoring System features:

- Ability to scan VIN Barcode located on door placard
- Capability to read and activate most foreign and domestic OEM vehicles TPM sensors
- Capability to read OEM equivalent aftermarket sensors
- Capability to read temperature and pressure on all FCA and other make TPM sensors when applicable
- WiFi capable
- Data records are stored on TPM tool and dealer designated server
- Capable of sending data records to WiFi enabled PC application for customer information storage
- Tool includes IR printer and docking station
- Indicate and display signal frequency strength of RKE system FOB
- Capable of testing Homelink signal
- Field updates will be communicated through DealerCONNECT

CH9936 Obsolescence Process:

The current essential TPM tool CH9936 will be discontinued for sale on February 1, 2017 and will no longer be required as an essential tool. Loaner units will be available if needed until the new 2046300080 Tire Pressure Monitoring (TPM) Tool is available.

Reason for discontinuing current TPM:

- Tool is over 12 years old
- Hardware is obsolete
- Not able to support 2018 and future FCA TPM protocols
- Software compatibility no longer supported
- Tool on-board memory has reached maximum capacity
- Manufacturer no longer supports or builds CH9936 TPM tool
